

CLEAR TRANSFER FILM

For Retransfer Technology

Evolis Clear Retransfer Film is required when printing cards with Evolis Retransfer Printers.

This ribbon is a varnish with registration marks to line-up sheet materials for printing.

Retransfer pattern on Agilia printer

ADVANTAGES

With Retransfer (or Reverse Transfer) technology the card image is printed on to the retransfer film. The clear film is then thermally transferred on to the card, covering the entire surface for a perfect edge-to-edge printing result. Retransfer technology enables the personalization of cards of different materials, as well as cards whose surfaces are not entirely smooth, such as smart cards.

Tested and validated by Evolis R&D and Quality departments, Evolis High Trust® consumables bring you printing quality and reliability.

GENERAL SPECIFICATIONS

- For single or dual-sided printing
- Polyester film with thin layer of specialized coatings
- 1 whole panel 98mm (3.86") length with black registration marks
- Printing lifespan: up to 3 years
- Compatible with PVC cards, composite PVC cards, PET cards, PC cards, ABS cards
- For Retransfer technology

PRODUCT INFORMATION:

- Clear Transfer ribbon
- 1 panel (Clear varnish)

COMPATIBILITY AND CAPACITY

PART#	PRINTS / ROLL	AVANSIA	AGILIA	RFID SYSTEM
RTCL009NAA	500	•
